

# Splash-Protection FACE SHIELDS

OUR MISSION AGAINST THE COVID-19 PANDEMIC

We have decided to aid in the production of critical PPE by manufacturing face shields at or below pre-crisis market prices. These are designed to prevent splash, spray and transfer of non-corrosive fluids to those in need in South Africa.

**LENGTH:** 235mm

**WIDTH:** 220mm

**WEIGHT:** 86g

## FEATURES:

- Clear visor for maximum visibility.
- Light weight for maximum comfort.
- Elastic headband for versatile sizing.
- May be worn with glasses or goggles and mask.
- Foam padding to limit top ingress and aid in comfort.
- Ventilation holes to limit fogging (concealed to limit outside ingress).

**PRICING:** **R 73.00 / unit**

- **Min Order Quantity:** 100 units
- **Price Excludes:** VAT and shipping
- **Payment Terms:** Strictly Prepayment or COD

*Please note: The price has been determined to be the lowest price on offer.  
No further price reductions can be made.*

## PACKAGING:

Shields are provided in flat-pack form and are easily assembled by the user. They are packaged in sealed plastic bags: 10 units per bag, 100 units per box. They are designed to be disposable, but may potentially be reused several times. *Please note: This product does not come pre-sterilised.*

*Donations are currently available for frontline workers. Please contact us.*
